To further the cause of good music in America....

The THEODORE PRESSER COMPANY has been tireless in its efforts to present the best in music of the past and present to the musical public. In recent years the Company has made great strides in the field of recording, publishing, and performance, but also of operatic, symphonic, solo and ensemble literature.

America is richly endowed with natural musical resources. Composers, performers, teachers, students, listeners, in greatly increasing numbers, find more and more opportunities for the practice, expression and enjoyment of music. The Theodore Presser Company's acquisition of notable specialized publishing concerns. For example, the pioneering record label, the New Music Edition, is now a part of the Presser catalog. The impressive variety of compositions by European composers, such as Liszt, Chopin, Debussy, and others, are now available through our editions at Musica Rara, Hausel, Editions Musicales Transatlantiques and Impero Verlag is now presented by the Presser Company. Making these masterpieces available to our American audience is a significant contribution to the enrichment of our national musical life.
